bcRaport Pro

bcRaport Pro

bcRaport Pro este o aplicatie integrata in pachetul bcManager Professional utilizata pentru obtinerea rapoartelor complete si personalizate referitor la toate datele existente in sistemul informatic.

The screenshot displays the 'Print Job - Details' window in the bcManager Professional application. The window is divided into several sections:

- Print Job - Details:** Shows the job name 'Pj' and 'SITUATIE VANZARI' with an 'Ascuns' checkbox.
- SQL - code (inainte):** Contains an SQL query:

```
<SQL
select factc.datafact, sum(factc.val) as val,
sum(factc.cant) as cant
from factc
where
MONTH(factc.DATAFACT)=5
AND
YEAR(factc.DATAFACT)=2007
GROUP BY DATAFACT
ORDER BY DATAFACT
SQL>
```
- SQL - code (dupa):** Contains cursor and graph closing commands:

```
_CLOSE("xCursor")
_CLOSE("xGraph")
```
- Graph:** Includes 'Initializare' and 'Stergere' buttons.
- Report:** Includes 'Modificare', 'Copy', and 'Stergere' buttons.
- Buttons:** A vertical column of buttons on the right includes 'Salvare', 'Abandon', 'Test', 'Open from', 'Save as', and 'Valori'.

Overlaid on the bottom right is a bar chart titled 'MAI' (Sales) showing 'VAL' (Value) on the y-axis (0 to 70000) against dates on the x-axis (5/3/2007, 5/10/2007, 5/17/2007, 5/24/2007, 5/31/2007). The chart shows fluctuating sales values with a peak around 5/17/2007. The chart is also titled 'bcMANAGER Professional' and has 'Salvare' and 'Abandon' buttons.
